

# Polling Place Hygiene

---

## **Management Decisions**

- You may adopt infection control practices and require your PEOs wear PPE.
- You may require a PEO stay at home.
- You may do a public health screening of voters.
  
- You may NOT require voters where masks at polling places on election day.
  
- You will have to assess your office and county policies to determine what works best for in-person absentee voting.
